

MYM Online classes uses the following account for online training.

- 1) Video Conferencing as communication channel (Please check the class setting on which one)
 - a. Skype
 - b. Zoom
- 2) LChess.org platform

Steps to create Skype account login to be used with MYM online training:

- 1) Go to <http://www.skype.com/en/get-skype/> to download the app to your computer. Then register a skype account using your email address.
 - a. Skype register procedure is user friendly. You have a choice of signing up with either a phone number or email address. **Please choose a name that your child will be able to remember its username and password.
 - b. You can also visit wiki on detail steps:
 - i. <https://www.wikihow.com/Set-up-a-Skype-Account>

Steps to Join Zoom Meeting

- 1) Go to <https://zoom.us/download> to download “Zoom Client for Meetings” and install.
 - a. Once installed, open Zoom application.
 - b. Click on “Join a Meeting”. Your instructor will reach out to you with a specific meeting ID and password for your class.
 - c. Please ensure Video is enabled, so you can interact with other students!
 - d. *There is no need to sign in to join a Zoom meeting.

Steps to create LChess.org account for free:

1. Go to <http://www.lichess.org> to register an account using your email address. It will ask you to confirm your email / activate after you finish sign up.
 - e. <https://lichess.org/signup>
2. After signing up on skype and lichess.org, please send an email with your child's name on subject. And send your skype and lichess.org account name to admin@mymchess.com for us to be able to add you to the online class.

Note:

- MYMChess Lichess account name: mymchess
- MYMChess Skypet Account Name: mymchess
- Email admin@mymchess.com if you have any questions.

MYM Chess Academy – online instruction

10 minutes before the class starts, please be ready by logging in with your lichess.org on your browser, and also log in with skype client on the pc/laptop.

Our coach will start inviting people into a group chat to have a prompt starting time. If there are any delays, it will be extended to run at least full 90 minutes if not more.
